SOLARIS 2.5 | Monopitch canopy filigree with V-gutter**SOLARIS 2.1 | Monopitch canopy basic****HANDMADE IN GERMANY**

With our aluminium canopies, you will not get a mass produced product. Our canopies are individually handmade with excellent quality and accurate production.

All corners and end points are hand welded, grounded and powder coated in an environmentally way. With this kind of production, our aluminium canopies are durable, torsional, weather and scratch resistant.

DÜPMANN QUALITY SEAL

Our Quality Seal guarantees:

- usage of high quality and weatherproof materials
- precise manufacturing and meticulous workmanship
- excellent stability with torsional strength
- strict quality control.

◀ Genuine only with
Düpmann seal

TAILORED TO YOUR NEEDS

With 40 standard models to choose from, our range of aluminium canopies are exceptionally wide. Customised designs are also available upon request. Our canopies are available in all RAL, DB, Metallic and hammertone colours.

OPTIONAL ACCESSORIES

Enhance the look of your canopy with our accessories:

- form-fitting side panels
- consoles
- integrated lighting unit

With these accessories, your canopy is not only used for weather protection, but also a design product.

Stainless steel monopitch roof

EDEL 4 | Stainless steel round roof with brackets

EDEL 1 | Stainless steel gable roof

EDEL 2 | Stainless steel gable roof with brackets

STAINLESS STEEL CANOPIES

Stainless steel material is often preferred for both practical and aesthetic reasons. It is resistant to corrosion and staining, maintaining the original appearance for decades. Our stainless steel canopies will seamlessly fit into modern architecture, retaining the look of the building.

QUARZ 1 | All-glass monopitch canopy with tension rods

QUARZ 2 | All-glass round canopy with tension rods

ALL-GLASS CANOPIES

Our all-glass canopies are designed with elegance and simplicity. The modern Quarz glass canopies provide protection from rain, sun or snow. The transparency of glass offers brightness, clear lines and beauty into its architecture.

Our all-glass canopies are stable, secure and easy to install. They are directly bolted to the masonry steel tension rods.
