PRODUCTS AND SERVICES

For more than 30 years our company offers door canopies, easy-to-install terrace roofs, practical vertical windows, smooth framed and frameless sliding and folding doors, protective carports and reliable insect protection.

OUR GOALS

We are committed to meeting your individual needs with focus on quality, design and excellence. We are passionate about the details that go into the completion of every project - from choosing colours, building a terrace roof that hold 600kg/m² to installing the profiles over 1,000 metres high. Together with our partners, we will make it happen, to your highest satisfaction.

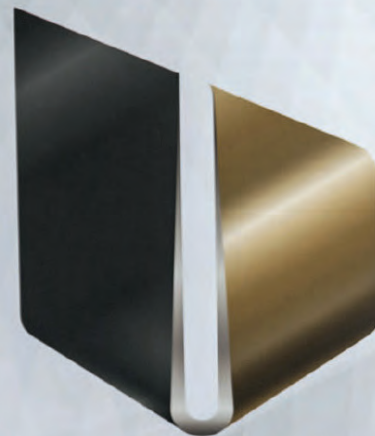

QUALITY - MADE IN GERMANY

Through permanent quality controls and improvement processes we consistently deliver our products with high quality. We are CE certified according to DIN EN 1090 in execution class 2.

TERRACE ROOFS

EXTEND YOUR LIVING SPACE

Aluminium Düpmann terrace roof provides great spaces for relaxation and enjoyment outdoor. It offers protection from wind and showers allowing you to enjoy longer outdoor living from Spring through Autumn. Natural light will flood into your space making it brighter and feel larger too. Our terrace roofs not only extend your living space but also appreciate the value of your home.

VERANDACUBE NEW
Flat-roof fitted with arched glass

INTRODUCING THE NEW VERANDACUBE

In 2019 we launched VERANDACUBE to our Terrace Roof product range. It is a beautiful new flat-roof for those who favours a minimalist and elegant look. VERANDACUBE can be fitted with our sliding, folding and slide & turn door systems, turning your space into a beautiful conservatory. For an atmospheric lighting in the evenings, you can fully integrate dimmable LED lights in our profiles.

ROOF TYPES

Other variations are available upon request.

TAILOURED TO YOUR NEEDS

Aluminium Düpmann Terrace Roofs are available in variety of designs. They can be individually customised according to your requirements with focus on quality, design and aesthetics.

The aluminium profiles are designed with smooth and closed surfaces, concealing screws, nuts or mounting grooves. Optionally the dimmable LED elements can be installed in our profiles to create an atmospheric lighting in the evenings. Due to extensive pre-manufacturing works, installing Aluminium Düpmann Terrace roofs is easy and fast. Our comprehensive range allows you to design your own well-protected outdoor space.

DETAILS

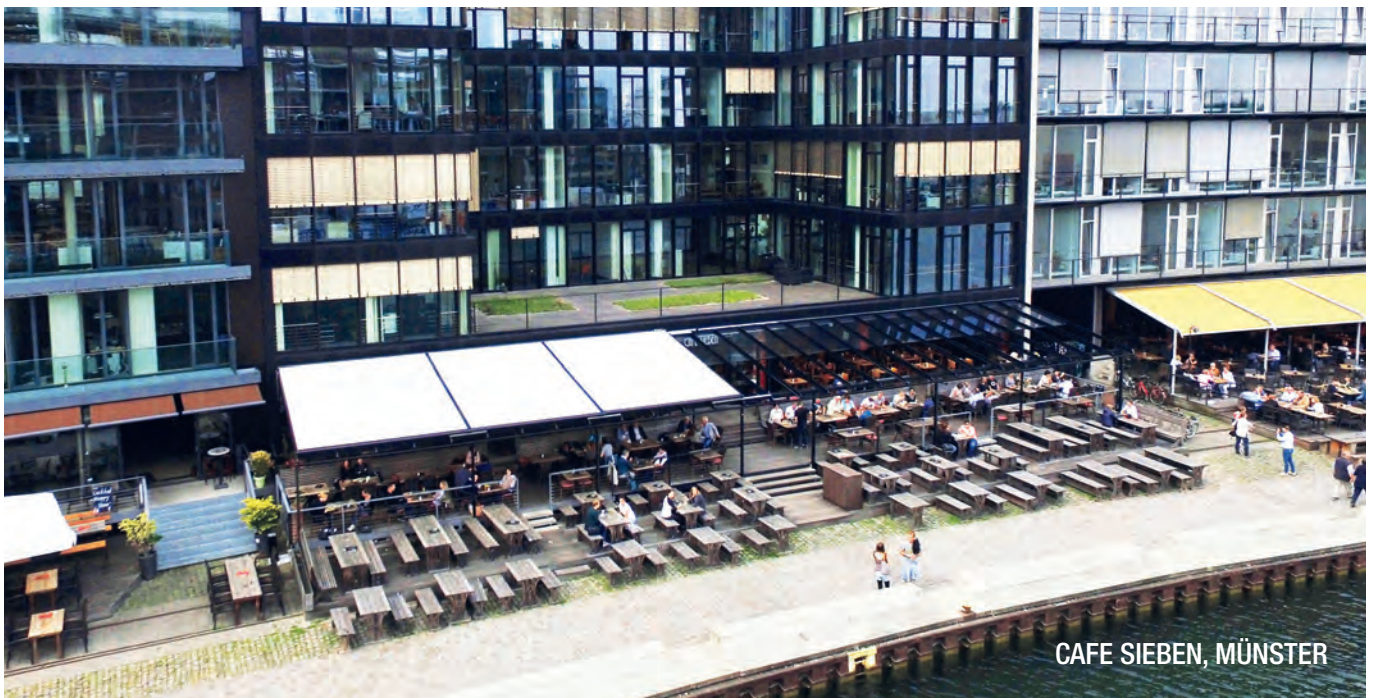

- Uninsulated aluminium profiles delivered in ready-to-build construction kit
- Up to 7m wide with only two pillars and 6.4m deep
- Up to 400kg/m² Snow load
- Possible glass thickness from 8mm to 32mm
- Roof inclination 2° –35° (depending on the type)
- DIN EN 1090-EXC2 Certified

PROJECTS WITH CUSTOMISED DESIGNS

Rooftop Bar, Beckum

380 sqm of space
Rafter height of 7.4 m
41 meter in length.

CAFE SIEBEN, MÜNSTER

SLIDING DOORS

INDOOR SITTING, OUTDOOR LIVING

Turn your terrace into a beautiful conservatory. Our sliding doors allow you to enjoy the benefits of outdoor living while being inside all year round. It opens up more space, allows more natural light and keeps the undesirables outside - wind, rain, leaves, snow and pigeons.

- Five tracks with up to 10 moving casements
- Window glazing of up to 24mm

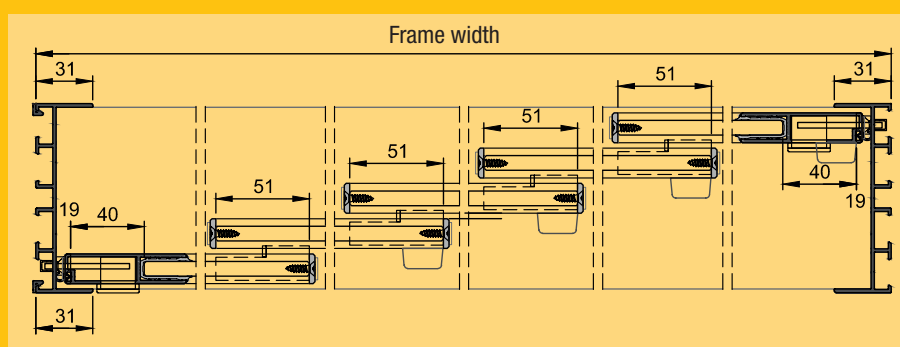

OUR BESTSELLER

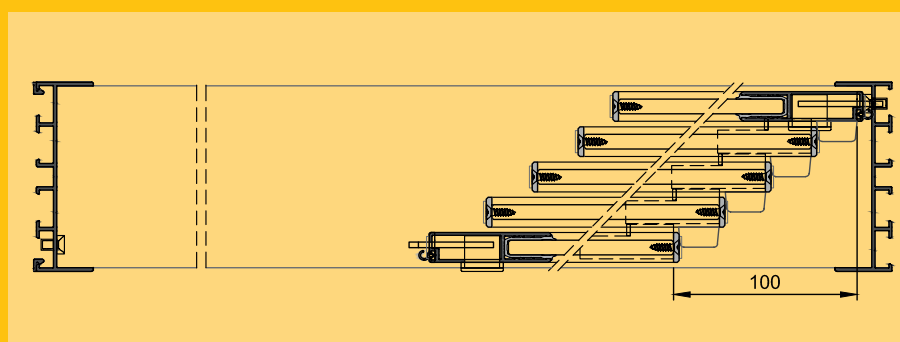

FRAMELESS ALL-GLASS SLIDING DOOR

The frameless glass profiles offer a minimalist and elegant look for your terrace. It sure does feel like having a transparent Glasshouse immersed in nature.

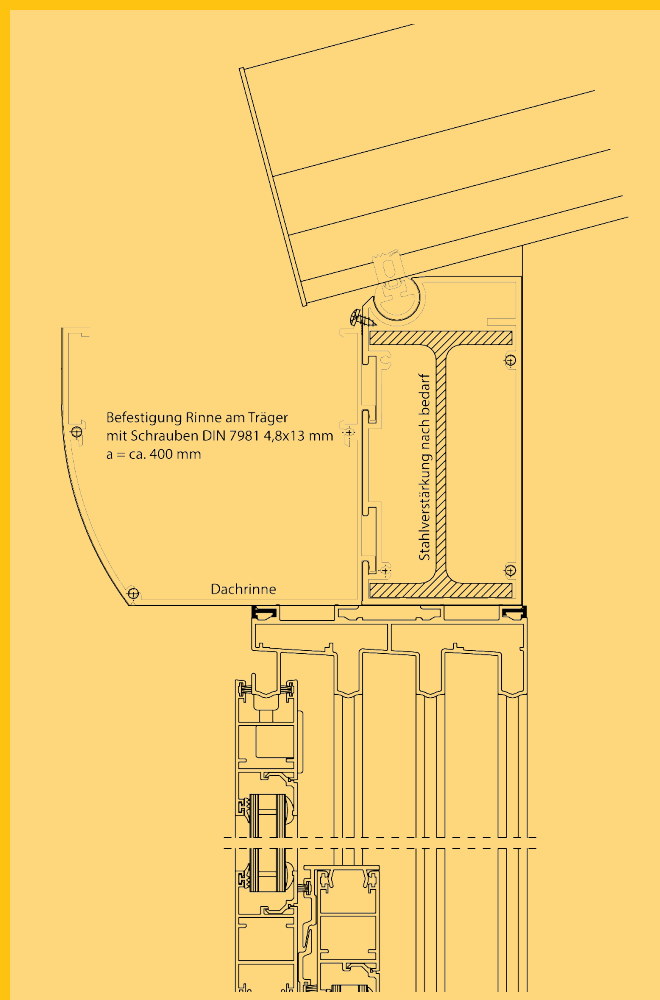

Frameless all-glass sliding system, closed

Frameless all-glass sliding system, opened

FRAMED SLIDING DOOR

Terrace roofs fitted with framed sliding door can be equipped with up to 16mm of insulation glass. Commonly preferred for its narrow profiles and increased weather protection. It is indeed an ideal alternative to highly insulated conservatories.

CONSERVATORY

Terrace roof fitted with sliding doors

FOLDING DOORS

OPEN UP YOUR LIVING SPACE

Enjoy an obstructed view with our Folding systems. The large opening width of our profiles creates a seamless transition from your home to your outdoor space. They are either insulated or non-insulated and can be folded inward or outward. The frames are slim and narrow providing great stability and elegant appearance.

FOLDING DOOR

Non-Insulated aluminium profile

ALL-GLASS SLIDE & TURN DOORS

TRANSPARENT OPENINGS WITH STYLE

For a minimalist look, choose our all-glass slide & turn doors for your conservatory. The frameless profiles fold and stack on the side without requiring a lot of space. They are narrow but highly stable, exuding a transparent and exclusive look.

VERTICAL SASH WINDOWS

SLIDE UP YOUR WINDOWS

With our vertical sash windows, it is easy to move up. The windows can be moved upwards and adjusted at every height without the need for additional stoppers. With optimal use of space and ease of usage, you have many possibilities for applications - kiosks, receptions, sales counters, restaurants, pharmacies or even in your private spaces.

INSECT PROTECTION

SCREEN THE INSECTS AWAY

The high-quality materials for insect protection are wind and weather resistant, wear-free and fireproof. From simple insect screens to roller blinds, light shaft covers, hinged and sliding doors - even vertical - to pleated doors, there are no limits to variety. They allow you to ventilate your rooms throughout the day without the need for harmful sprays. You can enjoy the summer and winter breeze without having to deal with mosquitoes, flies, spiders or wasps.

PRODUCT RANGE:

- Insect screens
- Insect protection doors
- Sliding fly screens
- Hinged sliding doors
- Insect protection roller blinds
- Pleated doors
- Light shaft covers
- Pollen protection and nets

- Wide range of accessories
- Individually handcrafted upon your requests

CARPORTS

SHADE AND WEATHER PROTECTION

A carport not only protects your car from harsh elements but also makes unloading the car easier. Aluminium Düpmann carports are available in four shapes – modern flat roof, maxi, round arches and pointed arches (gables). They are attractively designed with glass, coloured acrylic or functional GRP roofing.

GRAZIL

Available in round or pointed arch, GRAZIL is universal and expandable.

TERRA

For those who prefer the modern design, TERRA looks elegant with its real glass cover and rectangular shape.

MAXI

Suitable for all sizes, MAXI requires no additional sub-structure and is easy and quick to install.

Terra

Maxi

Grazil-round arch

Grazil-pointed arch

VARIOUS SHAPES AND STYLES

Accessorise your carports with LED or Halogan spot lights to create a warm and cozy atmosphere.
